

# Kunal Anilkumar

Filandastr.2, 12169 Berlin, Germany | +491745131907 | kunal.anilkumar@mailbox.org

Date of Birth: 18.05.1999

## Summary

Doctoral researcher in the PharMetrX Research+ Program at the University of Potsdam, specializing in mathematical and statistical methods for pharmacometric modeling. My research combines quantitative modeling, Bayesian statistics, and data analysis to support model-informed drug development and precision dosing.

## Work Experience

PharMetrX Graduate Research Training Program | PhD Student 04/2025 – Current

University of Münster | Student Assistant 04/2024 – 03/2025

- Led tutorial sessions for 24 undergraduate and graduate students, fostering an interactive learning environment.
- Evaluated weekly assignments, ensuring timely and constructive feedback to support student progress.

## Education

University of Potsdam, Ph.D. in Applied Mathematics 04/2025 – Current

- Thesis: Bayesian Approaches in Model-Informed Precision Dosing (MIPD).
- Supervisor: Prof. Dr. Wilhelm Huisinga.
- Co-Supervisor: Prof. Dr. Charlotte Kloft.

University of Münster, Master of Science Mathematics 10/2021 – 11/2024

- Thesis: The SIR Model of Epidemiology (1,7).
- Supervisor: Prof. Dr. Gerold Alsmeyer.

Shiv Nadar University, Bachelor of Science (Research) in Mathematics 07/2017 - 07/2021

JG International School, Cambridge AS and A Levels 03/2015 - 03/2017

## Skills

Programming Language: R, Python, C, MATLAB, LaTeX, NONMEM

AI/Agentic Coding: Claude Code, Gemini, ChatGPT

Git/Github/Gitlab

## Honors and Awards

- Dean's List, Shiv Nadar University 09/2020

Recognized for being in the top 5% of the class for exceptional academic performance.

- Student of The Year, JG International School 12/2016

Awarded for extraordinary contributions to the student community, selected from a pool of 100 students.

- Certificate of Achievement, JG International School

12/2016

Awarded for outstanding academic performance.

### Courses and Training

---

- PharMetrX modules
  - A1-A5: PK/PD, PBPK, PopPK, QSP, Statistics and Data Analysis
  - I1: Drug discovery and development: Walking along the value chain.
- SFB 1294 Autumn School 2026, University of Potsdam
- AI Tools- Responsible Use & Application in Academia, Potsdam Graduate School
- Scientific Programming with Python: From Fundamentals to Data Analysis, Potsdam Graduate School
- PHD Peer Support, Potsdam Graduate School
- Intermediate Git, DataCamp
- Python for Everybody Specialization, University of Michigan, Coursera

### Posters

---

- Challenges in Generating a Ground Truth for Method Development in Model-Informed Precision Dosing. Anilkumar K, Hartung N, Kloft C, Huisinga W. *PAGE 2026*. June 2026. [Link](#)
- Prospective randomised controlled trial on model-informed precision dosing (MIPD) for ustekinumab and vedolizumab in inflammatory bowel diseases (MOVE-IT): A Bayesian framework incorporating parameter uncertainty. Widigson ESK, Braun K, Duvnjak Z, Klose M, Frimor C, Anilkumar K, Huisinga W, Steenholdt C, Ainsworth MA, Kloft C. *PAGE 2026*. Jun 2026. [Link](#)

### Languages

---

Native Level Proficiency: English, Hindi.

Others: German (B2), French (A1), Spanish (A1), Gujarati (A2).
